# INTRODUCTION

Hill Directory Co., Inc., presents to its subscribers and to the general public this (1928) edition of the Goldsboro (City) Directory.

Confidence in the growth of Goldsboro, in its wealth, industry and population, as well as in the advancement of its municipal and social activities will be created as sections of this directory are consulted, for truly the directory is a mirror reflecting Goldsboro to the world.

The enviable place occupied by Hill Directory Company's directories in offices, stores, libraries and homes throughout our country causes the publishers to forecast the belief that the Goldsboro directory will fulfill its mission as a source of authentic information of any and every kind pertaining to our city. With an unrivaled organization having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labor will meet with the approval of every resident of the city.

## POPULATION

The estimated population of Goldsboro is 17,010, based on the number of individual names in the alphabetical section of the Directory, with due allowance for women and children, whose names are not included. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the Directory.

## FOUR MAJOR DEPARTMENTS

The several essential departments are arranged in the following order:

**The Buyers' Guide,** pages 17 to 48, printed on tinted paper, contains the advertisements of the leading manufacturing, business and professional interests of Goldsboro. These pages will be found particularly interesting and instructive to the substantial elements of the city. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and as such, merits a survey by all buyers keen to prime themselves on sources of supply. The city's activities, in many interesting phases, are interestingly pictured to reveal what it has in its show window. In an ambitious and progressive community like Goldsboro the need of this kind of information readily at hand is very great and frequently pressing. General appreciation of this fact is evidenced by the liberal patronage the City Directory enjoys in the many fields which it serves.

**The Alphabetical List of Names** of residents, business firms, corporations, is included in pages 49 to 312. (A new feature of this section is the inclusion of wives' names in parenthesis following that of the husband.)

**The Street and Avenue Guide and Directory of Householders** covers pages 000 to 000. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers.

**The Classified Business Directory** is included in pages 365 to 412. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between buyer and seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory section than through any other medium."

## MUNICIPAL PUBLICITY

The Directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To give emphasis to their desire to broadcast this information over the country, the publishers have placed copies of this issue of the Directory in Directory Libraries which are maintained in all the larger cities of the country, where they are readily available for free public reference and serve as perpetual advertisements of Goldsboro, for business men the country over realize that the City Directory represents the community as it really is.

## THE HILL'S DIRECTORY LIBRARY

There are over 400 of these Directory Libraries in the chain. One of them is maintained in the Chamber of Commerce. The publishers invite use of it by the public whenever in the need of information on other cities.

The publishers appreciatively acknowledge the patronage of those progressive business and professional men who have expressed their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., INC., Publishers.

# PREFACE

## THE GATE CITY OF EASTERN NORTH CAROLINA

### THE CITY TO-DAY

Goldsboro is the county seat of Wayne County, one of the leading manufacturing and agricultural counties of the State, being the home of thirty well-established manufacturing plants, their principal products being brick, veneer, lumber, building supplies, cotton yarn, hosiery, tobacco, locomotives, farm implements, furniture, mattresses, and several other commodities. The agricultural resources are unlimited and Wayne County produces annually an average of thirty thousand bales of cotton, fifteen million pounds of tobacco, tons of grain, hay and other food crops, to say nothing of live stock and poultry. Goldsboro is the center of the marketing of these commodities, which makes it a prosperous city and one well worth while locating in.

The population of Goldsboro in 1910 was 6,142. In 1920, according to government figures, this had been more than doubled, and to-day Goldsboro claims a citizenship of 16,000 happy and prosperous people. The city is the shopping center of upward of 100,000 residing within a radius of twenty miles.

Goldsboro, due to its surrounding territory and its geographical location and its unsurpassed facilities, is rapidly developing into a commercial center. Recently several large manufacturers have located distributing branches here. Thirty-two passenger trains run to and from the city daily, which is quite advantageous to the commercial traveler doing business in Eastern North Carolina. Goldsboro is indeed and, in fact, the gateway of Eastern North Carolina, and as such has a mission to perform. A mission which concerns every man and a mission which means much to mankind in general, because here in this favored spot is found health, happiness and well-being.

Goldsboro dates back to the time of Sir Walter Raleigh, who, if he did nothing greater than exploit the section wherein is located the Gate City, is entitled for this one act to a full meed of praise. In the many years that have elapsed since then, Goldsboro has pursued the even tenor of its ways and its citizens have been content to enjoy and prosper under its advantages until it has secured a foundation on which to create and which will enable it to build like the wise man of old—upon a solid rock which will withstand the storms of panics, short crops and the greed of politicians. In the building of this city to date ideal citizenship has been kept constantly in mind, and the greater duration of the visit of the "stranger within its gates" the more surely there comes the charm of intercourse with a hospitable, democratic class of citizens whose ideals are worth of character instead of a measure of the bank account.

Here is the dividing line between the frigid climate of the North and the enervating climate of the tropics.

Here is found nine months of summer, with only three of a not unpleasant autumn or winter temperature.

Here one is within a daylight journey of New York, Philadelphia, Baltimore, Washington, Savannah, Atlanta and Jacksonville.

Here one is within a thirty-hour ride of the cities of Boston, Quebec, Montreal, Toronto, Buffalo, Cleveland, Cincinnati, Detroit, Chicago, St. Louis, Louisville, Memphis, New Orleans, Mobile and Palm Beach, and reaching the population of over seventy millions of people.

Here one is within a few hours' ride of the finest surf bathing on the Atlantic Coast, on the beaches of Wrightsville, Morehead City and Beaufort; and here one can live in the warmth of a genial sun and yet be in touch with the life of the nation.

Health conditions are ideal, the death rate averaging less than nine to a thousand. The city owns its splendid water system, furnishing at a minimum cost the purest of soft, uncontaminated drinking water. Goldsboro has twenty miles of hard-surfaced streets, twenty-eight miles of paved sidewalks, well-equipped parks and playgrounds, permanent health and sanitary officers with efficient staffs, a permanent community center, a nationally known organization of associated charities, and one of the best and most active Chambers of Commerce in the South; a wide-awake Merchants' Association, an efficient traffic department, Rotary and Kiwanis Clubs, and all of the permanently recognized fraternal orders have local posts. Living conditions, from a health standpoint, are beyond criticism, and living conditions from a financial standpoint are within the means of all. Electric power, gas, telephone and water rates are equal to those of the average city. Being located in an agricultural district, country produce is plentiful and reasonable in price. All roads leading into Goldsboro are in good condition, and within a few months most of them will be hard surfaced. Hotel facilities are ample. Board and room in private homes is available.

In addition to being the Gateway of Eastern North Carolina, Goldsboro is the county seat of Wayne County, which ranks first in agriculture. Here is grown hay, alfalfa, cowpeas, cabbage, beets, beans, peas, celery, truck garden products, strawberries, dewberries, huckleberries, melons, peaches, plums, cherries, apples, pecans and numerous products of the soil. This is the land where can be grown three crops on the same soil during the year and a land which, by reason of its freedom from rocks and stones, is easily and economically tilled. Here can be produced from one acre of land 1,500 pounds of tobacco or 1,500 pounds of cotton.

Thirty years ago Goldsboro was a village of very few inhabitants. The soil, always unusually fertile, had scarcely begun to yield the wealth that is now pouring out in such abundance. The production of tobacco, now a great industry, was then only being introduced in this section. The contrast between Goldsboro of that day and 1928 is amazing. Population has greatly increased. Manufacturing industries employing hundreds of people at a good scale of wages now occupy many acres that were then but the open field.

To-day Goldsboro is an ideal location for factories. The great number of diversified industries now here are in a flourishing condition and developing to a marked degree each succeeding year; and the combination of climate, contiguity to the live sections of population, transportation, health, economic hospitality and other favorable conditions are forces sure to produce a healthful, substantial, and steady growth in population and wealth, and assures the investor as well as the homeseeker a certainty of acting wisely in locating in its midst.

Goldsboro has three railroads—the Atlantic Coast Line, the Southern, and Norfolk Southern. These great systems are among the best in the United States and provide transportation facilities second to none. They lead to the seashore or to the North or South, to say nothing of the great Central West. The many agricultural products of Wayne County find an outlet through the county seat and the factories ship their products to every clime and every land.

Wayne County boasts of good roads, which are of great importance to the farmer as well as the motorist, and add pleasure to the existence of any one who might be fortunate enough to be attracted to this section.

Goldsboro has one of the finest and best directed school systems of the State, where a thorough and exacting course of instruction assures a splendid education and a good college preparation. Eleven school buildings supply the demand, and they are constructed on the latest approved plan for educational institutions.

Goldsboro has a high moral and religious tone. There are thirty-five churches of various denominations whose congregations work in close harmony towards the advancement of the common weal and who gladly welcome all newcomers. Any one is welcome here, however, regardless of their religious belief, and is free to act in accordance with their convictions.

Goldsboro has a generous and well-constructed water and sewerage system. It was built with consideration of the future and is ample for the supply and sanitation of a city of many thousands of inhabitants. With an abundance of water, Goldsboro has a guarantee which attracts factories as well as individuals. The fire-fighting force, backed by modern appliances, is efficient and watchful.

It is recognized to-day that the great South, with her amazing number of unexploited resources and possibilities of development, her superior conditions for agricultural production, and her healthful and charming climate, affords at the present the best field of opportunity. The only debatable question is, which Southern State and what location in that State offers the best combination of the particular conditions you desire?

Wonderful is the South, and great beyond our dreams will be her future, but in all these Southern States there will be none to compare in the magnitude of its growth with the pre-eminently well-favored State of North Carolina.

The EYE is seventeen times stronger than the EAR.

Research has proven that impressions received through the eye are seventeen times more effective than those received through the ear.

Your advertisement in the City Directory reaches the vision of your prospects all over the city 365 days in the year, because some one is using it every hour in the day.

# A Store of Service

ROME was not built in a day and the same thing applies to any business. It is often said that the foundation of a structure is more important than the columns and roof, and rightly so.

To go into a store day after day, year after year, knowing that every article sold across the counter has the backing of guaranteed quality makes any fair-minded customer appreciate a service that has stood for half a century and more.

Service and quality are the two armed guards that stand at the door of this store ready to serve.

The
City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth—a modern, up-to-date method of getting what you want.

# Power of Advertising

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase.

If your business is not classified properly and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

**Advertising** is the foundation upon which successful businesses are built. You must apply this to your own particular business.

**Advertising** is the power of an idea multiplied.

---

**RATES UPON APPLICATION**

---

No other service compares with City Directory service

# Advertising Goldsboro

Do you know that a copy of this Directory of Goldsboro is being placed in the Directory libraries and among the commercial bodies, Business Men's Clubs, Chambers of Commerce and the larger business institutions throughout the United States?

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities and its possibilities for the future.

The publishers are doing everything possible to make this Directory a representative city catalog of Goldsboro. Are you as prominently represented as you should be?

## Goldsboro Street and Avenue Guide

*and*

## Directory of Householders

## 1928

Copyright, 1928, by Hill Directory Co., Inc.

In the following list the streets are arranged in alphabetical order, the numerically named streets follow immediately the named streets in numerical order without regard to geographical location; then the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupant or householder. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession, business, etc., of individuals and firms are only given at their respective places of business. To find occupation of householders, refer to Alphabetical List of Names.

# The City Directory

**represents the City and its institutions in every corner of these United States**

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

# Are You Properly Represented In It?

---

**The Classified portion catalogues the professions and goods handled here**

---

ARE YOU LISTED UNDER YOUR PROPER HEADING SO THE PROSPECTIVE BUYER CAN FIND YOU?

---

## "Think It Over"

# This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.
